CONSUMPTION.
SCHENCK'S PULMONIC SYRUP IS THE ONLY MEDICINE THAT WILL CURE REAL CONSUMPTION. SCHENCK'S PULMONIC SYRUP Is the only medicine that will heal the LUNG. Sometimes a cough with a cough will often occasion the death of the patient. It looks like liver, aches the chest, the blood, hemorrhage follows, and, in fact, closes the actions of the very organs that caused the cough. BRONCHITIS, AND DYSPNOEA are the early signs of CONSUMPTION. The lungs are the cause of two-thirds of the cases of consumption. Persons who are now complaining with dull pain in the side, the bowels sometimes constive and sometimes too loose, tongue coated, pain in the shoulder blade, feeling of heat and cold, and a general feeling of weakness; the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver. Persons so affected, if they take one or two lines of Schenck's medicine, the food that is taken has heavily on the stomach, accompanied with acidity and belching of wind. These symptoms usually originate from a disordered condition of the stomach, or a torpid liver
